Experience

Web Development Intern at Ohio Department of Health (November 2018 - June 2020)

- I work as part of a full development team for the Office of Management Information Systems in an agile environment, both part time and full time.
- My projects have included an application for state-wide handling of at-risk families in as well as an internal Human Resources application upgrade.

Summer Student Employee in IT at Gojo Industries (Summer 2017 and 2018)

- Completed a web application for use in another department.
- Participated in a deployment of a digital asset management system.
- Ensured essential operating system updates were completed during a large Windows security breach.

Personal/Volunteer Work

Game Creation Club (2016 - 2020)

- A social club to promote the hobby of video game creation.
- Served as Treasurer for 2018-2019 school year.
- We run several hackathons for games every school year.
- Check out our website at <https://org.osu.edu/gamedev/>.
- See my finished games at RyanHavanas.com

GDEX

- An annual video game convention every fall.
- Volunteered for 3 different years, helping to assist with panels and events.

Education

The Ohio State University (Completed May 2020)

B.S. Major in Geographic Information Science
Minor in Computer Information Science

GPA: 3.16
